

KOOP PALMOLIEVRIJ

Deze lijst telt ruim 200 stoffen die vaak in voedsel, verzorgingsproducten en cosmetica zijn verwerkt en die (mogelijk) zijn afgeleid van palmolie.

Hoewel de voedingsmiddelenindustrie sinds eind 2014 verplicht is om te vermelden van welk gewas plantaardige olie of vet afkomstig is, zie je soms nog slechts "plantaardige olie" staan. Dit zal in veel gevallen palmolie zijn.

Let op: dit overzicht is slechts een leidraad. Wil je zeker weten of een product palmolie bevat, neem dan contact op met de fabrikant.
